1982 Annual Town Report

THE NINETY-EIGHTH ANNUAL REPORT OF THE OFFICERS OF THE

TOWN OF MILLIS

for the
YEAR ENDING DECEMBER 31,
1982

TOWN OF MILLIS

DEDICATION

Police Chief George J. Smith, Jr. June 10, 1937 - January 9, 1983

Nothing has saddened this community so much as the untimely death of Police Chief George Smith. Millis has had more than its share of tragedy, and those who have departed, leave us with a terrible sense of loss and grief that we share with their families.

Time, in its own way, will help to heal our wounds, because we have been left with a heritage of achievements that will be long remembered.

Question 1 - Proposed Amendment to the Constitution

Do you approve of the adoption of an amendment to the constitution summarized below, which was approved by the General Court in joint sessions of the House of Representatives and the Senate on July 2, 1980 by a vote of 171-4, and on June 21, 1982 by a vote of 144-44?

SUMMARY

The proposed constitutional amendment would remove the present constitutional prohibition against the use of public funds to aid or maintain private primary or secondary schools.

It would permit the Commonwealth, cities and towns to make public funds available to pupils attending private primary and secondary schools in the form of either aid, materials or services subject, however, to three specific

Italians. First, the private school could not be one that discriminates on the basis of race or color in its admission requirements. Second, the grant of aid must be consistent with the First Amendment to the United States Constitution which guarantees the free exercise of religion and prohibits the establishment of religion. Third, individual pupils would have to request the aid, materials or services. In addition to these three specific limitations, the amendment would authorize the legislature to enact other laws incosing conditions or restrictions on the grant of public aid, materials or services.

The proposal would also change the state constitution to allow public money to be spent to aid informaties, hospitals, charitable or religious undertaints if they are either publicly owned or under the control of public officials. The state constitution now prohibits such spending unless these institutions are both publicly owned and under the control of public officials.

Yes	411	463	874
No	730	995	1,725
Blanks	60	89	149

Question 2 - Proposed Amendment to the Constitution

It was appraye of the adoption of an amendment to the constitution summarized below, which was approved by the General Court in joint sessions of the House of Representatives and the Senate on September 19, 1980 by a vote of 123-63, and on June 21, 1982 be a vote of 125-62?

SUMMARY

The proposed constitutional amendment would allow the legislature to enact laws authorizing the state courts to impose the death penalty on the conviction of primes to be specified by law. The proposed amendment would provide that no provision of the state constitution may in the future be construed as prohibiting the imposition of the punishment of death.

Yes	731	924	1,655
No	416	556	972
Blanks	54	67	121

Question 3 - Law Proposed by Initiative Petition

Do you approve of a law summarized below on which no vote was taken by the House of Representatives or the Senate before July 7, 1982?

SUMMARY

The proposed law would require that before the construction or operation of any new nuclear power plant or low-level radioactive waste storage or disposal facility in the Commonwealth, the legislature must make certain findings and a majority of voters must approve the new facility at a statewide election.

Before the question of building a new nuclear power plant could be submitted to the voters, the legislature would have to find that (1) the proposed facility is the best means for meeting energy needs based on certain economic, safety, environmental and social considerations; (2) a federally-licensed facility exists for the disposal of the high-level radioactive waste that would be generated; (3) an approved emergency preparedness plan has been developed; (4) radioactive pollution standards have been promulgated; and (5) a demonstrated, federally-approved technology exists for decommissioning the proposed power plant.

Before the question of building and operating a low-level radioactive waste storage or disposal facility or of entering into an agreement with another state to build and operate such a facility in Massachusetts could be submitted to the voters, the legislature would have to find that the technology and site designated for the proposed facility are the best available based on certain economic, safety, environmental and so fal considerations. The legislature would also have to find that the obligations imposed on Massachusetts by any interstate agreement were no greater than those imposed on any other state.

The proposal would not apply to a facility which had obtained all necessary government approvals before August 5, 1981, nor to any facility for disposal or storage of radioactive wastes from medical or bio-research applications in Massachusetts.

Question 4 - Referendum on an existing Law

Do you approve of a law summarized below, which was approved by the House of Representatives on November 10, 1981 by a vote of 108-49, and by the Senate on November 16, 1981 by a vote of 29-1?

SUMMARY

The law requires that a refundable deposit be paid for certain beverage containers sold in Massachusetts.

Beverage containers of less than 32 ounces must have a refund value of at least five cents and larger containers a refund value of at least ten cents. This requirement applies to nonbiodegradable containers of carbonated soft drinks, mineral water, beer and other malt beverages, but not to containers of other alcoholic beverages, dairy products, natural fruit juices or wine. All beverage containers subject to deposit must clearly indicate the refund value on the container.

The deposit is paid by the consumer upon purchase and must be refunded when the consumer returns the empty container to a proper dealer or redemption center, so long as the container does not contain any material different from its normal contents. Dealers and distributors are also subject to the same deposit and refund on the beverage containers they handle, and are also entitled to a handling fee of at least one cent per container.

No containers can be sold in the state if they are joined together by plastic rings or any other device that cannot be broken down by light or bacteria.

The law provides a bottler a reduction in corporate excise tax of one-tenth of one cent for each reusable beverage container which the bottler sells in the first three months of 1983. The law provides for additional unemployment benefits and, if the Legislature appropriates the funds, a job retraining

program for employees of bottlers, canners, or manufacturers of beverage that takes effect on January 17, 1983.

Question 5

Shall the Secretary of the Commonwealth of Massachusetts inform the President and the Congress of the United States that it is the desire of the people of Massachusetts to have the government of the United States work vigorously to negotiate a mutual nuclear weapons moratorium and reduction, with appropriate verification, with the Soviet Union and other nations?

REPORT OF THE BOARD OF SELECTMEN

The Board of Selectmen organized on May 10, 1982, with Leonard L. Baranara, Ir. as Chairman, Hindy Rosenfeld as Vice Chairman and Collins C. o'Connor as Clerk.

The Selectmen, involved with every phase of town government, continue to act as liaison to many in and out-of-town Boards and are active in union negotiations under the jurisdiction of the Board of Selectmen. Increased duties coupled with governmental State and Federal requirements almost belie the fact that a Selectmen's position is "part time".

Just as the Chinese designate each of the years as The Year of the Cat or The Year of the Dragon, we must designate this year in Millis as The Year of the Change and The Year of the Roof.

Where changes were concerned, George Cassidy saw fit to retire from the part-time position of Town Accountant last May, a job he held for fifteen years. George was recognized by Proclamation from the Board of Selectmen at the last Annual Town Meeting and was accorded a standing evation by our citizens, an honor richly deserved.

We were fortunate to retain the services of Caroline Price of Dedham as Town Accountant. Mrs. Price took over the reins in a smooth transition period aided by Mr. Cassidy.

In the same office, Bookkeeper Mary Germano retired after 20 years of service to more leisurely pursuits. With the computer taking over many of the bookkeeping jobs, we hired the services of Barbara Byrant to the Computer Operator position. With Mary's help in transition, the office is running smoothly.

The appointment of Bob Russo to the Board of Assessors to fill the vacancy created by Fred Tierney will enable the Assessor's revaluation program to continue under a full board. Bob has almost completed schooling in East Bridgewater and will be eligible for assessor certification very soon. He will be a valuable addition to the Board of Assessors with his past experience on other town boards.

For those who have been anxiously awaiting Cable TV, we signed the final license with Rollins Cablevision on December 20, 1982, and look forward to having cable service in Millis by April of 1983. The process was lengthy and time consuming, but handled superlatively by a fine Cable TV Committee who are still overseeing the program and will be observing the stringing of the lines beginning in February.

For that part of the year in Millis designated as The Year of the Root, hardly a building owned by the town has escaped some form of roof dimine needing repair or complete renovation. The Town Office roof has just been completed. We are still waiting for estimates to repair the lower library roof, since contractors declined to write specifications or make bids for earlier repair requests. We are told the Clyde Brown School roof will be a

fiture project and the older part of the fire station roof is in need of result with leavage problems. The Department of Public Works building roof is ilso in need of result. We are trying to obliness these problems, knowing that preventive maintenance may just keep a roof over our heads.

It with the time of the ring is completed, we are going to removate the time office building to an important the expanded use it has been getting from the descriptions. We have to make it more energy efficient, more importable for those who work there and those who attend meetings there, and more attractive in the sense that it is and should be a building in which we can all take pride.

The recent acquisition of the Cott (Clicquot) property by the Ann and Hope Intrany of Sutherland, Rhole Island, is good news for Millis. Ann and Hope, Inc. was the first of discount stores and will be using the property as a distribution center. We have met with Mr. Irwin Chase, President of Ann and note, Inc. a number of times, and welcome him as our neighbor. Mr. Chase's timing has already put some of our to all people to work while the buildings are being recovated. We wish Mr. Chase and Ann and Hope every success.

Filunteer programs remain the mainstay of our existence in many areas. The Ir I program for fuel assistance is being processed by Ellen Stokinger, and we find her assistance invaluable. Those in need of the program can get all recurrences by calling him-4 (4) at Niagara Hall on Wednesday between the hours of 12:30 p.m. and 3:30 p.m.

The lively landscaping at Towle's Corner was undertaken by members of the last Tree League with a grant left in the hands of the Selectmen some years are. Fan Tree's other beautification probe to in Millis have been most extent with funds they have raised on their own. We applied their efforts and wish them continued success so that they may continue their fine work.

Energy Commission members Tauno Aalto, Sam Howie, Nick Costantino and Francis Murphy continue working in our behalf. They are completing a project at the landfill building that will greatly decrease fuel consumption and are trafting a more efficient heating plan for the town office building. If interments in town buildings are having problems that could be addressed by the nardworking committee, please contact any of the above members.

Thanks to Carole Helling and her sommittee for providing Fourth of July festivaties which so many resplie look forward to each year. Anticipation of the event builds incrugated the year so that it gets bigger and better every 4th.

We extend thanks to all these who help us provide services and would be texted if we did not mention Bob Lealie and DPW people who cheerfully aid us elter intricties described and many other chores in town. Our thanks to Mr. calleste, who provides sobol opage on many necessary occasions and to menters of the John I Committee, whose cooperation in our endeavors is appreciated.

The new ambulance, delivered a few short months ago, is the latest in efficiently and life-encial equipment. It is obvious that we have an excellent, top-rated vehicle on hand, ready for any emergency.

We have addressed many complaints in Millis about local telephone service. Uplated equipment has been installed in the central office and will give Millis better service in the future.

We held a 90th birthday party for "Mid" LaCroix at the Town Office last August. It was a fun recognition for one of our most homorable citizens, at guess who was the "life of the party". We'd just like to be able to been up with him — and wish him MANY MANY MORE.

In November 18, 1982, we held a Departmental Seminar that was very well attended. Most departments aired their converns for the coming year. It was hoped that another seminar could be held at budget time (January), but other events took precedence. Caroline Price, Fown A countant, did report however, that budgets would have to be level funded once again, unless additional monies would become available, an unknown factor at this time.

We have difficulty in finding people to fill valited appointment alors only would appreciate hearing from anyone willing to serve.

There are so many things that come to our attention in the course of one year that we could so on indefinitely. We have given you the highlight end must now close on a different note.

Nothing has saddened this community so much as the untimely death of heli a Chief George Smith. Millis has had more than its share of travedy and those who have departed, leave us with a terrible sense of loss and trief that we share with their families.

Time, in its own way, will help to heal our wounds, because we have been left with a heritage of a hievements that will be long remembered.

Respectfully submitted,

Leonard J. Bateman, Jr., Chairman Hindy Rosenfeld, Vice Chairman Collins C. O'Connor, Clerk

A surprise Santa paid a surprise visit to the Board of Selectmen's Office. From left to right, fromt row: Hindy Rosenfeld; Santa; Leonard Batemen; back row: Collins O'Connor; Jacqueline Anderson, Administrative Assistant.

CONTRACTS BID AND AWARDED BY THE BOARD OF SELECTMEN DURING 1982

Insurance - hospital medical, surgical - Blue Cross'Blue Shield, Brockton, Mass., only bidder, coverage for July 1, 1982 to July 1, 1983, under Chapter 32B of the General Laws, individual, \$67.72; family, \$175.73; 0.M.E. individual, \$30.79 per month. Life, accidental and dismemberment awarded Boston Mutual Life Insurance Co., Boston, Mass., to July 1, 1983, \$.69 per thousand dollars, limit \$5,000.00 insurance per employee. The Town pays one half of the insurance premiums.

Insurance - general - Richard G. Connors Insurance, Inc., Dedham	\$82, (11,0)
Insurance - police professional liability - Richard G. Connors Insurance, Inc., Dedham	\$2,062.00
Insurance - sports policy - D. L. Murphy Insurance Agency, Inc., Millis	\$2,600.00
Insurance - Police accident - D. L. Murphy Insurance Agency, Inc., Millis	\$3,845.00

GEORGE D. CASSIDY, JR.

George Cassidy retired this year from his position as Town Accountant after serving the Town so well in that capacity for fifteen years. In addition, Mr. Cassidy was Water Registrar, Sewer Registrar, Charter Commission nember as well as being active on many Town Committees. He is still a member of the Industrial Development Financing Authority. His dedicated service to Millis is deeply appreciated and we sincerely hope he will continue his efforts in Millis' behalf for many years to come.

REPORT OF THE TOWN ACCOUNTANT

In accordance with the requirements of Chapter 41, Section 61, of the Massachusetts General Laws, the following finencial statements for the town of Millis are submitted for the fiscal year ended June 30, 1982:

(1) Balance Sheet

Tital Receipts

1982

- [2] Schedule of Receipts
- (3) Recapitulation of Appropriations and Expenditures

MARY M. GERMANO

Mary Germano retired in October 1982 after twenty years of service to the Town of Millis. Mrs. Germano began work for the Millis Board of Welfare. When the Department of Welfare became a State Agency, Mrs. Jergary joined the Town Office staff as a bookkeeper. In more recent years she served as computer operator for the Town.

The Board of Selectmen, in behalf of the Town of Millis, extends to Mary Germano a healthy, happy retirement and its appreciation for her many years of service.

COUNCIL ON AGING REPORT

The Install on Abine, a seven-member beard, appointed by the Board of Illinois, meats in the third Tuesday of each month, September through June at derively Terrare Februarion Room. Its task is to maintain and improve, when able, the quality of life for the senior citizens of Millis.

Special attention has been given to health care, nutrition and transportation.

The tagority of the bousing units at Fennedy and King Terrace are occupied by senior citizens. The balance of our seniors live in their own homes or starttents, with their families or at the Town's only rest home, Four feasing. There are in excess of five hunired senior vitizens in Millis.

Health olinibs, a legal clinic and recreational opportunities are either tlannel, these assert or overseen by the founcil on Aging. A frequently tiblished newsletter is malled to 505 households in an effort to keep our senior citizens informed of the opportunities available to them.

The daily nutrition program continues at St. Paul's Parish Hall. In addition, ever 24 meals per month are delivered by volunteers to shut-ins.

Tre Fiel Assistance program is being coordinated by the Council on Aging again this year.

Fiture plans are to re-introduce and update the Vial of Life Program in title of making fally living as secure and safe as it can be for our senior citizens.

Respectfully submitted,

Priscilla Sinatra CHAIRMAN

REPORT OF THE ZONING LAW APPEAL BOARD

The board held 18 public hearings during calendar year 1982 as tollows:

Paul L. Germano - denied a variance to separate two contiguous lots on Union Street;

George D'Innocenzo - granted a frontage variance for a single family dwelling at 189 Village Street;

REPORT OF CABLE TELEVISION ADVISORY COMMITTEE

The process required to bring cable television to Millis continued to the process. The most difficult task it selecting me applicant out it to the vest. The most difficult task it selecting me applicant out it to the testing the ATV transition was finally completed. In March 1982 the cable television advisory committee submitted its to the testing and after that I link a ablevision of Southeast tasks to settle the awarded the transmisse to bring cable television to Millis. That I is a transmisse to bring cable television to Millis.

The facility of the state of the provisional livers were accomplished to be a first linear following the front on December 20, 1982 the tinal livers was stated with a livers of the Southeast Massachusetts.

All treliminary work has been empleted. As of this writing, pole make fellow the has started. Actual higher installation will start early in 1983 with completion expected in early spring 1983.

Respectfully submitted,

Robert J. Provost, Sr. Chairman CATV Advisory Commission

REPORT OF CIVIL DEFENSE COMMISSION

I terewith simult my report for the Civil Defense Commission for the year All requests of the State fire tors have been fulfilled and reports requested completed and submitted.

ar tire tilling dispatchers and civil defense radio communications officers have taken part in all radio alerts and drills.

Respectfully submitted,

Manning Doliner Civil Defense Director

REPORT OF THE CONSERVATION COMMISSION

During 1982, the Conservation Commission underwent a number of hardes, both in location and in membership. First, the regular meeting with was changed to the second Monday of the month and meetings will now be held in the Board of Health Office at the rear of Niavara Hall on Exchange Street. Second, we were fortunate to find a very competent new secretary, Eathing Callaghan, to carry on the excellent work performed by Janice Aviza, who resigned in July. Also, two key members, John Minnuc i and Durwood Rowless, left the Commission because of new assignments in their regular jobs. I don't served as Chairman in 1980 and Durwood succeeded him until he resigned in October 1982. Finally, we welcome aboard Edward Chisholm as a new member.

Only one public hearing was required under the Massachusetts Inland Wetlands Act and it concerned an application by Medway Lumber to develop a parcel of land on the south side of Route 109, adja ent to the wetlands. The work was permitted with restrictive conditions.

In addition to the above new work, the Commission was a time in reviewing the status of Orders of Conditions set by the Commission on past Inland Wetlands Act applications. Where necessary, previous applicants were requested to modify their work in order to comply with those conditions set by the Commission.

The Commission reviewed the site of the proposed condominiums at the end to Clarke Road, even though a Notice of Intent has not as yet been filed by the applicant.

The Commission identified all lands under its jurisdictions and reviewed and discussed the limitations imposed on land under conservation easement with some owners.

A representative of the Commission participated in the West Resource Recovery Council In-Town Committee to prepare plans for the region's solit waste disposal.

Members directed and participated in the May 8, 1982 cleanup of the Charles River in Millis.

The Commission worked closely with the Recreation Committee which was developing a Life Course for exercise on Conservation land off Viller. Street. A public meeting was held to discuss permitted uses with abouters of the Commission land. As a result, the location of the Life course was adjusted to respond to abutters' comments and a set of rules and regulations was developed which will form a basis for application on other Conservation Commission land. Thanks is also extended to the Millis Lious Club for their assistance in constructing footbridges for the Life Course.

I believe the major accomplishment of the Commission during 1982 was the preservation of a large tract of farmland in Millis. Under the Massachusetts Agricultural Preservation Restriction Act of 1977, the town acting with the State, was able to purchase the development rights of the Louis De Angelis farm on Spring Street. Funds were provided almost entitely from the State,

... the exception of in, the contributed by the Conservation Commission. The ... received mash for the development equity and will continue farming on the land, thus preserving a valuable natural resource.

Respectfully submitted,

Lawrence J. Bergen, CHAIRMAN
Millis Conservation Commission

4 4 4

1982 REPORT OF THE TOWN COUNSEL

The Town of Millis was an active litigant in a variety of courts during 1982.

Together with the Fitchburg City Soli itor, Town can did fratted by submitted on behalf of the Town a joint amici curise brief for the legical States Supreme court in the case of City of Revere v. Massachusetts Legeral Hospital, which involves the constitutional obligation of much applied to pay for medical expenses for suspects injured during arrests. Oral argument is expected in January of 1983.

The Massachusetts Supreme Court attlemed a decision of the Appellate Tar-Board which had reversed the Millis Board of Public Works' denial of entally water abatements.

After six years of litigation, the \$1.5 million (ivil rights action brought by developer John E. Sullivan against the Town and eighteen present and former Town officials was disposed of on extremely favorable terms and without personal liability for any of the individual detentants. An automobile accident case involving the Town was settled without liability to the Town. The suit between the general contractor and the Town concerning the construction of the addition to the Folice-Fire Station was also settled.

There was significant Appellate Tax Board activity involving the Two during 1982. Five different cases, including one major case, were settled either prior to or during trial.

Three new law suits involving the Town commenced in 1982. A convict sued the Town under the civil rights act for wrongful jury selection, but this was eventually dismissed by the Federal Court. A restaurant owner sued the Planning Board for its failure to grant a special permit to build a playground. Once again, an inholder sued the Board of Appeals for failure to grant a variance to allow him to sell alcoholic beverages.

Town Counsel rendered to formal written legal opinions and so or allegal opinions involving legal research, to various Town boards and personnel. He also rendered counsel and advice to Town officials and employees on numerous other occasions. Sixteen contracts were either frafted, revised or reviewed by Town Counsel. Town Counsel attended most of the regular Selectmen's meetings and several meetings of other Town boards and personnel, in lating but not limited to, the Board of Health, Board of Assessors, Building Inspector, and Finance Committee. Town Counsel dratted and recorded numerous deeds, easements and lieus on behalf of the Town. He attended all sessions of Town Meetings and either drafted, revised or reviewed all warrant articles.

Town Counsel was elected President of the Massachusetts tity Solicitors and Town Counsel Association where he has been an active member since becoming Town Counsel of Millis. Town Counsel frafted and assisted with the passace by the Great and General Court of a special legislative act for the Town.

It accests from a review of the annual reports, that my Telel year tenure as Town Counsel is the longest in the history of the Town.

Respectfully submitted,

Harvey Weiner
TOWN COUNSEL

Respectfully submitted,

John Cassidy DOG OFFICER

REPORT OF THE COMMITTEE FOR THE PRESERVATION OF THE ELLICE SCHOOL

The Future is based on the Past and what we do about it Now. Many towns and cities cherish their historical buildings. The Elli e School is a substantial building which can add much to our historical heritage.

Our fund has now grown to Sal9.70 as of December 31. We are so that full to Shirley English, her family, and friends of Ellice School who contributed items to be sold at the fleatmarket on July 4 and the lawn sale in August. We thank Nita Heustis who gave a beautiful atchan for the ratifle. We thank all who gave and bought to make these sales one essful. They added it is our bank balance.

Respectfully submitted,

Rose L. Blom Chairman of the Committee for the Preservation of the Ellice School

REPORT OF THE ENERGY COMMISSION

increased inservation of massion is provided report another progressive, that ding year. Again the schools continue to show the best results. The two increased in the communication - Head custodian Nick Execution and his assistant "Sliver" Marphy and time cotting things done to traveling the same since the Commission was first appointed. They practice that this Commission preaches - Energy Conservation.

The impletion of the new dual twee burners at the Junior-Senior High from I stw a character natural gas heating in September. At the midpoint of the field year Manuary 40 figure, had shown a saving of \$7,000 from the pressure, and emergen y generator was also put on a permanent natural gas store, for more using gas dine. Electrically, the High School Cateteria criter and teachers' area, which had high wattage incandescent lighting, was replaced by In flourement units that provide much more efficient and lower estage illumination. A in plating patile fam installed in the bus entrance area will bring tracced warm air flown to where it in be felt. The Bosse shatem has proved itself a plus, by monitoring conditions, preventing expensive and the also putting energy as sixth well programmed methods. The flyie for what and seminal is holds had not water gas heaters installed so that more expensive (il burners is not have to run during non-heating months.

The Time Landfill Building name under the structury of this Commission after an enormous oil bill a year ago. Members Sam Howie and Duke Aalto have the that Issue and with Sam's heating expertise, have made improvements with a cold air return and a relocation of a thermostat that should show a marked reduction upon completion of some insulation.

The filling Fire Station saw the installation of two paidle fans in the attories to a that brong fown the warm air to where it will do some good. A political avaisation lights now alert the dispatcher of open doors to attories and organiser have and the rear entrance corridor of the new attories. The two bays also have been put on a zone of their own that the tree the efficienty of their heating system. Much more improvements are being contemplated.

The Department of Bubble Works Building had three more paddle fans instatuet to attrategic areas which were warmly received. The office area there till needs attents nowhigh the I mmission hopes to resolve and are included if fiture plans.

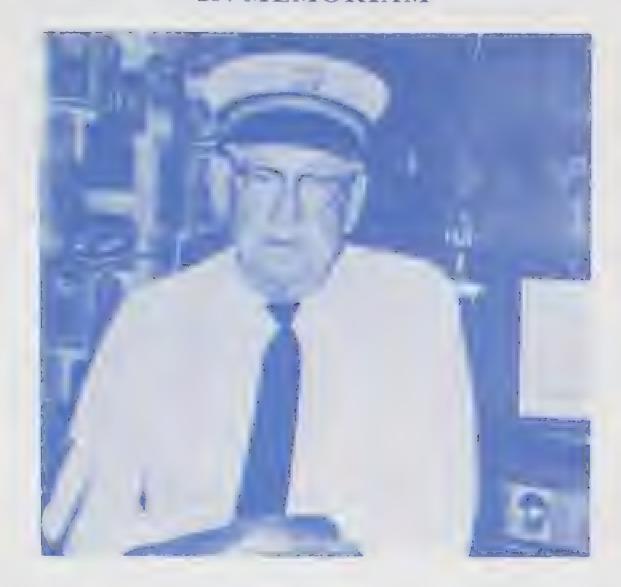

The Tiwn fitted is to get a thorough going over when the Commission meets also the Board of Selectmen early in February. Other Town Buildings will the discrete. As our finds (Article 27-1980 Warrant) are slowly running it, we may be requesting an approval from the populace of further funds for factore frugal if rays into needed areas.

The Commission wants to thank all Town Departments for their assistance and cooperation and wants to emphasize our availability in matters concerning energy conservation.

Respectfully submitted,

Tauno "Duke" Aalto - Proudly, for a Great Committee Sam Howie Nick Costantino Sliver Murphy

IN MEMORIAM

John J. Ward 1908 - 1982

John Ward held the office of Fire Chief from 1964 to 1973. In conjunction with his duties as Fire Chief, he served as Forest Warden as well as Special Police Officer. He also served on the Board of Fire Engineers. Mr. Ward was civil Defense Director for several years and prior to that was a Sealer of Weights ans Measures.

The Millis Distinguished Citizen Award was presented to Mr. Ward on September 19, 1976.

REPORT OF THE FIRE DEPARTMENT

At the annual I wn Meeting in May 1980, money was appropriated to gar to a new fire truck to replace Engine #2. The contract was awarded to Maxim Motors of Middleboro, Massachusetts. In August 1982 the Town to Activity of the new truck, a 1250 g.p.m. (lase A Pumper, which has been put to a 1 use many times since it was delivered.

Money was appropriated at the 19%. Town Meeting to repower the laber the with a new diesel engine. That contract was awarded to Pascale Service Corporation of Pawtucket, Rhode Island. The laber truck is new back in service with a new diesel engine, new transmission, power steering, and a new rear end. This truck will give the town many more years of ergo e bet to it will have to be replaced.

The total permit fees collected was as follows:

Plumbing permit fees
Gas permit fees

\$ 1,858.50 732.50 \$ 2,591.00

Mr. Frasca wishes to express appreciation and many thanks to Shirley Rowley, Rose Robinson and Henry McCarthy, assistant plumbing and mass inspector, for his assistance during 1982.

BOARD OF HEALTH AGENTS

For the year, 1982, there were several miscellaneous complaints received and appropriate action taken where necessary. All complaints are logged at the Board of Health Office and investigated by board members whether reported in writing, by telephone, anonymously or identified.

Sixteen new septic system installation inspections were made plus tiftum, inspections for modifications of existing facilities. Some of these required re-inspections.

All food service establishments were inspected twice during the last year. Some of these required a warning and a re-inspection.

The board has been actively involved in investigating complaints with regard to the G.A.F. Corporation located on Union Street, Millis. Members are working with the Massachusetts Department of Environmental quality Engineering in the study and resolution of problems associated with the operation of the Millis facility. The long-standing problems emanating from G.A.F. are being resolved slowly by a cooperative effort of many private, local and state agencies. It is hoped that current efforts, though difficult and time-consuming for a parttime, unsophisticated board, will provide the desired results expected by all townspeople.

Receipts sent to the town treasurer from the Board of Health totaled \$4,329.50.

PUBLIC HEALTH NURSE

Claire Fitzgeruli, R.N., reports services provided during her first full year as Public Health Nurse. In order to fulfill the needs of the townspeople, Mrs. Fitzgerald has attended several seminars.

Bhold pressure clinics are held on the first Friday of each month at

Terrace. During this time counseling is given regarding disease processes were held in April and May with 75 clients attending. Influenzations were well attended in October with 175 people being immunized.

well as investigation and follow-up of all persons with communicable riseases and their contacts.

lead testing is done by appointment on pre-school children.

Available at the Board of Health Office is a medical loan closet. This the state of the state of

re. Fitter fell without thank every to who helped her with the various that the rear. Without the operation of these volunteers, it would have been impossible to continue holding these clinics.

MILLIS BOARD OF HEALTH

Joanne M. Ganley, R.N., Chairman Margaret J. Clark, Clerk Joshua Mael, third member

REPORT OF HISTORICAL COMMISSION

The Historical Commission that past year has been working with the Ellis-School Preservation Committees. We participated with lower tool rail and with the Historical Society and Friends of the Ellice School.

This coming spring some clearing of the area of the school's site will be started by some town y luntemers. We are built of the start start of the school started by clubs, etc. will come forth to aid us also.

We are also setting down rough drafts for our projects for the coming Centennial.

Work is also being down on updating our town's history book.

The Commission meets on the trird Terlay of the model from Correct le through May. We welcome anyone who may be interested in helpfor in with conserving of town history to join us.

Respectfully submitted,

Jacqueline Graci

REPORT OF THE MILLIS HOUSING AUTHORITY

The Millis Housing Authority Board of Commissioners meet on the first Westnesday of the month at 1:5 p.m. in the Kerrentian Hall of Ferrell Torrecto report on the activities of the Authority and to set new policy. The Authority continues to maintain tall scaupen y and a local waiting in applicants for its seventy-three unit complex of elderly housing.

In 1982, the Board welcomed its new member, Mrs. Mary Welch, who was elected to finish out the unexpired term of Mr. Joseph Cassidy.

In July we were all deeply sidemed by the feath of our Evolution Director. Ann E. Latisek. Mrs. Latisek hid been the Director of the Authority since 1977 and contributed much to its successful operation during that part of it time. She will be sincerely missed.

Mrs. Jounne M. Pavlor was appointed the Executive Arrestor in september and she is very enthusiastic about her new position.

A special thank you to Mr. Robert Healy for his continued efforts in maintaining the property and particularly for his additional essastance in the interim period between directors.

We gratefully acknowledge the many Town departments and boat associations who contribute so greatly to our efforts to provide sate and contortable

The second relation of the Second state of the Second state of the Second state of Public Works for their assistance and constant support throughout the year.

Respectfully submitted,

Vincent J. Howley CHAIRMAN

REPORT OF THE INDUSTRIAL DEVELOPMENT COMMISSION

In 19-1 the Industrial Development Commission (IDC) was resurrected and ifficers and members elected Bernie Lewis, Chairman, Sam Howie, Vice Institute. Item Flaherty, Flerk, also, Tom Murphy and Paul McMahon). The filtery curp se of the IDC is to assist and promote the commercial development of the Town. The IDC has a current inventory of all the commercial and internally sined property showing the owners of record as well as a map institute these areas. Hand-in-hand with promoting business, the manuscript increase the number of new jobs in the town, to improve the standard of living of the citizens of Millis.

The III held regularly scheduled meetings bi-monthly at Niagara Hall to it- use the commercial and industrial climate in Millis. The Commission trafted a marketing purphlet explaining such things as: the type of town Millis is, incentives for business and industry, modes of transportation, the situal system, etc. This pumphlet has been distributed to area businesses as well as real estate brokers and agents. Copies are available on request from the Town Hall.

feveral prospective businesses have shown interest in locating in Millis, their injuries have been addressed. Ann & Hope purchased the Cott Beverage full-life in Flute 19 with a MIFA bond, hoping to create approximately 50-75 jobs.

The IIII is composed of experienced businessmen who can assist you with your mestions concerning site selection, finance, marketing, etc. For more information, please call one of the IDC members.

Fiture meetings will be the first Monday of the month at Niagara Hall.

Respectfully submitted,

Bernard Lewis, Chairman

REPORT OF THE INDUSTRIAL DEVELOPMENT FINANCE AUTHORITY

Your Industrial Development Finance Authority had several meetings with various groups during 1982. The main adcomplishment was the approval and signing of a loan agreement for four million dellars or Industrial Economic Bonds with the C & A Realty Trust and Ann and Hope, In . This corporation was successful in purchasing the former Coft Bottling Corporation's property located on Main Street and plans to use the facilities for a warehouse to serve their retail stores. The Industrial Revenue Bonds have been issued in conjunction with the Commonwealth of Massachusetts and the Town of Millis.

Your committee was pleased to be a part of this successful enders or and we hope that there will be other business enterprises that will consider coming to our Town. The help extended by Town Officials was greatly apprediated.

Respectfully submitted,

George Cassidy, Chairman Richard Young, Secretary George Coulter William Curley John Roddy

REPORT OF THE ANIMAL INSPECTOR

The following bites were reported for the year 1982.

24 dog bites

The annual animal census and barn inspection were completed as directed by the Massachusetts Division of Animal Health. The census for 1982 is as follows:

Cattle	142
Horses	119
Sheep	148
Swine	126
Goats	17

Respectfully submitted,

Joshua Mael Animal Inspector

REPORT OF THE BUILDING INSPECTOR

Tar noticed and twenty-five building permits were issued for all aterories of construction during last. Intal estimate of construction was \$5,1mb,580. If this amount, \$1.5mg. was for new construction. Fees onlies ted amounted to \$8,018.00.

Permits issued:

Single dwellings	13
Condominium units	31
Alterations	47
Additions	49
Wood stoves	40

Respectfully submitted,

William F. Whelan Building Inspector

REPORT OF THE WIRE INSPECTOR

Hear Ye! Hear Ye! May I present to you
Board most worthy. My report of Eighty-two
Wouldst join my stylish singing
In tidings I'm a bringing
Then just repeat
To tune and beat
Of "Bicycle Built for Two"

"He's flipped his lid" Say you three.
Nay. A milestone, as an "appointee"
Fifteen years, my how they've flown
Serving Millis while the Town has grown
No wonder I resort to song
To celebrate cannot be wrong.

Now back to basics - (forget retrospect)
The facts and figures on what we inspect.
367 permits helped us arrive
At thirty-seven hundred and ninety-five
Dollars of revenue, this office collected
The highest ever, and must be respected.
Seven hundred and forty-six inspections
Culling out all imperfections
How many hours getting this done?
We counted five hundred and seventy-one.
Recorded mileage (Note: without rebate).
Twenty-three hundred and ninety-eight.
The following statistics I do not rhyme.
I never have. Saving space and time.

Service Related	75
New Dwellings	10
Condo Units	20
Renovations	81
Additions/Alterations	52
Commercial	33
Industrial (Annual)	4
Smoke Detectors	30
Municipal	9
Oil Burners .	
Fire Damage Repairs	10
Homeowners	10
	/
Swimming Pools	7
Miscellaneous	19
	TOTAL 367

Thank ye! Thank ye! To my most able crew Rosie, Jackie, Roma and Teddy too! Your most efficient carriage Of tasks. None can disparage I must repeat A class elite A privilege to work with you.

Now to close, with a bottom line Reserved, with love, for my wife Quine.

Respectfully submitted,

Tauno O. Aalto, Sr. WIRE INSPECTOR

REPORT OF THE JRTC REPRESENTATIVE

The first E-simal Transportation is made in transportation planning in the Metric Hitan Elanning organization on transportation planning issues for the Eastern area. The lifth is made up of 5% members representing talling attention, offices and towns, and primate non-profit organizations. The first as meeting a month to compliant pending transportation issues and to be also means as a forcement profess and programs. Resent issues have and east the first Line Extension; the Taird Harbor Crossing; Interstate Ironsfer; and Air Rights over Route 128 Railroad Station.

REPORT OF THE LIBRARY TRUSTEES

During the past year, the Librarian-in-harge, backed by the Trustees and urged on by the ladies of the dak Tree League, has made a determined effort to restore a satisfactory level of library service to the town despite budger restrictions under "Prop 2-1/2".

This effort has been largely successful but not with it respectively burn to some individuals. Two of our long-time and valued staff members tell barrassed by pressure to change familiar pourings and take opsome new responsibilities, and they resigned or refired.

It has been possible, working within our budget, to till these positions in a way to spread the work had and accomplish our objectives, but the less had are sorry indeed, that this had to come about in a way not equally agreefactory to all concerned.

The problems connected with fixing the lasky root obtings to place to we have had more than one acceptable proposal from proposal rater for doing the job including estimates within the appropriation medent had the last Town Meeting. "Catch 22", of course, is that dotablet specification may be prepared and the job put out to bid. Those who have make proposal would like to do the job. They are naturally unwilling—in tast, if would be improper, for any one of them—to expend the one idenable time and effect that specifications and then enter competitive bidding on them.

The Trustees, at the present writing, are following up a leaf of an experienced, "third party" engineering designer of roofs, who might a derivate to draw the specification, up a separate, fee besis, the ten to be paid at of the Trustees' Fund.

The Trustees' Fund received payments to alling \$1, 140.44 from the original Trust sine our last report end has earned interest of 500.57 dupler \$15.4 As of December 31, 1982, the total stood at 11, 166.90. The libbal furing Memorial Fund received interest of \$42.88 is, 1982 and totalled to 1.76 at December 31.

The Trustees wish to thank our new start members for their special cooperative efforts in quickly learning our routines and asomic classimmediate responsibility for overing deak hours with competent and sold cheer toward our public.

For the Trustees
Respectfully submitted,

Robert M. Morse Chairman, Board of Library Trustees

REPORT OF MILLIS MEMORIAL DAY COMMITTEE

The 1982 Memorial Services were held on Sunday and Monday, May 30th and 41st under the auspices of the Millis American Legion Post #208 and the Millis Amvets Post #495.

On Friday evening, May 18th, a contingent from the two Posts went to Prospect Hill Cemetery to decorate the graves of veterans of all wars.

Memorial Sunday was observed on May 10th with services at St. Faul's Episcopal Church at 10:00 A.M. with members from Millis Post 2008 and AmVets Post 8495 in attendance. The services were conducted by guest preacher, the Reverend Sandra Boyd.

Memorial Day exercises were held on Monday, May 41st, beginning with the decoration of our Memorial Squares at 8: 4.M. with a combined group of Legionnaires and AmVets participating. The Millis Memorial Squares are: Buddy Kearney Memorial, Pollard Memorial Drive, Raymond J. Curry Memorial Square and Harry Himelfarb Memorial Square.

This year there were a tew slight changes in the formation and parale route. It was the idea and hope of the committee that the closeness to both St. Thomas' and the Church of Christ's parking lots for the forming and ismissing of parade units would be a distinct advantage to all concerned. We also felt that the changed parade route would eliminate some distance and retracing of steps that has been done in the past years, and also the time that traffic is held up on Main Street during the parade would be lessened.

The parade assembled at 9:15 A.M. and started at 9:30 a.m. from Curve Street between the intersection of Exchange Street and St. Thomas' Chur have parking lot. It proceeded to Prospect HIII Cemetery where a brief service was held at the Veterans Lot there consisting of a band selection by the Millis High Sr. Marching Band, a prayer by the Regerend Lames C. Sleeper of the Church of Christ, the placing of the wreath by Edwin E. Waite, Commander, American Legion Post #208 and then the Salute to the Doad with Taps.

The Parade proceeded to the Korean Vietnam War Memorial for services beginning with a band selection. The reading of General Logan's orders was done by Mark Kravitz, one of our High School speakers. A prayer was given by Rev. Joanne B. Sleeper of the Church of Christ, and then Vice—Chairman of the Board of Selectmen, Hindy Rosenfeld was introduced for appropriate remarks and the presentation of a flag to the Town of Millis to be flown at the Korean/Vietnam Memorial. The placing of the two wreaths was done by Selectman Leonard J. Bateman and Town Moderator John Bugan, in the absence of Selectman Collins O'Connor. The salute to the Dead and Taps followed and then a band selection by the Millis High School Marching Band.

The parade units reassembled and proceeded to the World War II Memorial on Main Street. Services there consisted of a band selection, the recitation of the Gettysburg Address by High School speaker, Robert Confrelli, the Necrology was read with bell response. (This is a list of the deceased veterans of the Town of Millis since last Memorial Day, 1981). A prayer was given by Rev. Francis W. Beksha of St. Thomas the Apostle Church; the wreath

.. clared by Folkettern Birty Alsenteld, the Salute to the Dead was fasued, then Taps, and ending with a selection by the band.

The parate then problemed to War Memorial Square at Exchange and Corverages where the main ceremonies were held.

It. For the direction of Anth my Hyde. Wellowing remarks were given by Eight E. Wilter, I direct Millis Memorial Day Committee. The invocation was glan to Eac. James T. sleeper of the Whar hoof christ. The very inspiring the The Flutters Field was given by our third High School speaker and Iles' State Telegare, Nits Nobress. At this time Commander of Post #208, Even watte, intrinced or speaker, Rev. Lanne B. Sleeper, Co-pastor of the Church of Christ, to bring to us our Memorial Day address.

It is not the plantag of the wreath at the War Memorial Stone by Dr. Jacob J. Than, Himmary Timester of Millis American Logion Post #208. The call was given to Salute the Dead followed by Taps.

The line the Memorial Day becomenies was the playing of our National Archinette Mills Mich John I Band and then the dismissal of the parade.

The Mamirial law immittee wishes to thank all who participated in these in that I average and the services. Especially do we appreciate the parents who have a credit their chilines to be a part of this special occasion and who with these have have these exercises a meaningful success.

Tip. The Millis Foliate to the Millis High School Bands for the music and Tip. The Millis Foliate, Fire, and Public Works Departments, the three high a speakers, the Millis Town Selectmen, the Town Moderator and our local lergy.

The fail thanks to these members of the Committee who carried out their seaturents diliberably and successfully before and during the Memorial Day when ties and to those not on the Committee who gave so generously of their time and talents.

Respectfully submitted,

Edwin E. Waite, Chairman Millis Memorial Day Committee

REPORT OF TOWN MODERATOR

As has been the case in the past few years, the Annual Town Meeting was well attended this year. Perhaps because people are more conscious or the impact of Town Meeting action upon their tax rate. Proposition 2-12 has limited the framework within which the budget must be handled and most voters seem to appreciate that the various departments have made the errors to work fairly with each other in the budget process.

I want to take this opportunity to give a special thanks to the members of the Finance and Personnel Committees who each year work long hours without compensation and without appreciation for the comprehensive job which they must perform. We are constantly looking for able people who are willing to serve on these committees and urge anyone with an interest in community affairs to submit their names to the Town Offices for appointment to their positions.

As we approach our Town Centennial it is hoped that more prople in urcommunity will take part in various activities within the Town on that Milliscan continue to develop and grow as a good place for people to work and live.

Respectfully submitted,

John G. Dugan Town Moderator

REPORT OF THE NORFOLK COUNTY MOSQUITO CONTROL PROJECT

The identifical Project Program integrates all proven technologies into a social forestith control that is rational, safe, effective and economically facilities.

all tradulth eggs thed water to hatch and to sustain larval growth.

The Refution Work: For primary wiferts are concentrated on the stalling of shallow, standing, standard water and the maintenance of existing fl. systems which contribute to mosquito breeding sources.

Drainage ditches cleaned
Brush obstructing drainage cut
Culverts cleaned and opened

4,864 feet 1,734 feet 10 count

largaritiding: Treatment of masquito larvae during aquatic development is the next most effective control effort.

Aerial applied larvicide Larvicide by backpack and mistblowers

1,675 acres 161.5 acres

At Attitions: The suppression of flying adult mosquitos becomes necessary when they are numerous, annoying or threatening to residents.

Adulticide mistblowing from trucks

Adulticide U.L.V. from trucks

Catch basin application. Adulticide and larvicide

214.5 acres
22,528 acres
235 count

Trees, inspections and monitoring in support of our programs include that the mapping breeding areas, larval and adult collections and fieldwork evaluations leading to better drainage.

The project received 42 calls from residents for information and assistance.

Respectfully submitted,

Albert W. Heuser Superintendent

REPORT OF THE PLANNING BOARD

During the year 1982 the Millis Planning Board held thirty meetings and tour public hearings. Six approval not required plans were reviewed and endorsed by the Board.

The Board denied the Special Permit request of McDonald Corporation to locate an outdoor recreation area in front of the existing building at 939 Main Street.

The Board approved the scenic road alterations to Forest Road. The alterations will allow rebuilding the upper bridge over the Charles River.

The Board proposed six zoning changes which were adopted at the Annual Town Meeting.

Respectfully submitted,

Alfred A. Tolley, Jr. CHAIRMAN

REPORT OF THE POLICE DEPARTMENT

The first in the last was its bound artime alf. This part year stration is initiated and treat parent. has been a high primity. Officer limits faired and acts as sitety officer in the highway, etc. Officer Baima is a stationary of the home, on the highway, etc. Officer Baima is a stationary of the best at with the income. He has been a list of applied by I-tective William Carlson who has given drug abuse lectures to both thingsters and local adult groups.

The filtre interest applicates the entires of the Millis Alcohol and Drug I.a. Committee. These people have banded together in an honest effort to metter our community. I am sure the citizens of Millis are aware of the series are as the crimber of the series are the crimber of the series are the crimber of the series and described the series are the

I will like to take this or ptunity to thank all the town boards who have usel-tell as in the mast year and especially the townspeople who have tarated with as in a joint effort in making Millis a sater and timer place to reside.

Respectfully submitted,

George J. Smith, Jr. Police Chief

- October, 1982, we took delivery of our new ambulance, which was badly ed to replace the old problem-ridden and undependable vehicle.
- " e pointers worthy of note:
- . Having oversize house numbers can make a crucial difference in an emergency.
- .. When summoning emergency personnel, try to turn on a porch light or send someone out to direct those responding to the call.
- . When calling the 911 emergency number, do not hang up the phone until after the dispatcher does. (Just in case you do not provide all the information needed or there is some further information to be given to you.)

Countrywide, the municipal ambulance service is becoming known as the third service. Few are the communities who have one public safety leader has a love and affinity for all three (police, fire and ambulance) as did lice Chief George J. Smith Jr. In this respect, too, he was a man ahead of stime. He will be much missed by us and will leave a great void in these tree services.

Respectfully submitted,

H. Robert Yeager
DIRECTOR, MILLIS AMBULANCE

REPORT OF THE POLICE AND FIRE STATION BUILDING COMMITTEE

In June, 1982, a settlement was reached in litigation between the town and station contractor. The compromise settlement enabled the committee to mish work on the building.

During the fall, numerous items were awarded and completed, such as new the fall of the pumper, lownspouts and grates the downstairs windows. It is anticipated that the remaining tasks will completed by June.

The Committee, as well as the town, suffered a great loss with the death of ief Smith. It was his vision and dream which has guided and directed the ittee since 1977. We have lost a good friend.

Respectfully submitted,

Roger Hood, Chairman

IN MEMORIAM

Charles M. Cushman, Jr.

1922 - 1982

Mr. Cushman was a lifelong resident of Millis. He served on the Board of Water Commissioners for several years prior to working for the Water Department. He was appointed Superintendent of the Millis Department of Public Works in 1977, a position he held until his retirement in 1979.

EPORT OF THE MILLIS BOARD OF PUBLIC WORKS

Tr. Millis Brand it Fublic Works represented on May 5th, 1982 as follows: m. Perros DeAngelis was mit-i Dhalron, Mr. Robert M. Hagoarty, Clark and Mr. Edward J. Cronin, Third Member.

The talentar year 1991 saw the Department of Public Works' Personnel talting forth a one busited percent plus effort in order to ope with the restrictions aright appart necessitated by the level funding mandate of Protestrict 2-1 2. The to the inflated dollar, budget are outs and reduced distinct, titlzens have realized a reduction of services, supplied by the Information of Public Works, in various areas. Superintendent Robert Leslie is true, to account date requests from residents and implement the normal title interest required of the Expartment of Public Works, by placing some on a triority busis. We a numeric Superintendent Leslie, his men and administrative starf for putting for the fruitful year under edverse conditions.

In addition to the routine duties of our Department and Board (which et alises his way, water, sever, temetery, park, tree, insect pest control and sanitary landfill) and the assistance rendered to various town departments and committees the following items should be noted:

- 1. The new soccer field, located behind the Mobil Station on Route 109, was a tribated for town forces and has lent itself edvantageously to the needs of the community.
- ment with the establishment/construction of the Life Course located on the life firest and have periodically maintained same throughout the year.
- 3. Tree Care Program In April 1982, seedlings purchased from the Middlesex Conservation District and the Norfolk County Agricultural School, at a minimum cost to the town, were planted at the town nursery, same being funded by the Tree Care Program article passed at the 82-83 annual town meeting. Several trees were removed and trimmed at wir was lattices through the efforts of this interest received their independent trees were replaced with nursery stock.
- 4. In keeping with our ongoing program, main sewer trunk lines were flushed at all the Millis Schools, VanKleeck Road, Pollard Drive, Exchange Street, Winter Street and Cottage Avenue during the month of June 1982.
 - The array mentioned program was implemented to prevent sewer line blockages and eliminate sluggish waste water flow.
- 5. On an unanimous vote of the Board of Public Works a new Water Fee Dreame with the Board which became effective July 21, 1982.

Enforcement of these new updated fees was necessitated by lack of remarks, which is required to operate Millis' self-supporting water department cost effectively. The loss of Cott Corporation and a

decrease in production by G.A.F. Corporation has resulted in depreciable water usage, thus less revenue received.

On an unanimous vote of the Board of Public Works a new Sewer Fee

Establishment of these new fees was implemented in order to bring service charges up to current standards.

- 7. Town forces completed construction of the athletic field which is located behind the town library on Auburn Road with the exception of additional leading and seeding which will be implemented in the option of 1983.
- N. The following areas were sealed and leveled to preserve the life of the roadway by preventing erosion: Clark road, Woodlawn Drive, Grove Street, Acorn Street, Daniel Street, Irving Street and a portion of Curve Street, Village Street, Winter Street, Exchange Street, Ridge Street, Main Street and Pleasant Street. This item was funded by state monies and the work completed by town forces and contract labor.
- ". Implementation and completion of a drainage project on Rosenfeld Road, by town forces this item was funded by monies obtained from the previously passed drainage article.
- I. Guardrail installation was completed at the following locations throughout town: Norfolk Road and Baltimore Street; the Pleasant Street Bridge area; the Myrtle Street Bridge area; Village Street near the intersection of Village Street and Norfolk Road; Farm Street behind the Millis post office; and Middlesex Street by Bogastow Brook.

The above mentioned obstruction was tunded by state monies obtained trom the obtained of Public Works' program designated to improve public safety. This contract was completed by Pavao Construction Company of Fall River, Ma., which received the \$120,000 contract award from the Massachusetts Department of Public Works.

At this writing the execution of future improvement projects (reconstruction of hazardous intersection locations throughout town) is hopeful but dependent on positive town meeting action in order to secure additional state or federal construction funds.

The engineering design of an interceptor sewer and pumping station to transport flow from the town's existing sewerage system to the proposed Black Swamp Interceptor and the Charles River Pollution Control District Plant in Medway, Ma., as shown and described in the Report "Report for the Town of Millis, Ma. on the Facility Plan for Wastewater Treatment Facility dated October 1981" is in the final stage prior to completion. The first draft of construction specifications and plans have been completed and are being reviewed prior to submittal to the applicable state and federal agencies.

At this writing, it is the hope of this Board and our consultant, Anderson-Nichols Co., Inc. of Boston, Ma., that actual construction will commence in the Fall of 1983.

- town's sanitary landfill, and we urge more residents to participate in this operation, for by doing so the life expectancy of the landfill area can be increased.
 - in December of 1982. Hopefully, 1983 will bear the fruits of this program, by eliminating, through stricter control methods, the utilization of the area by non-residents.
- established at the designated sites which will allow for tree removal and grading of applicable areas by town forces. The before mentioned being funded by monies received by the passing of Article 28 82-83 Annual Town Meeting.
- 14. On July 21, 1982, Mr. Robert Leslie, Superintendent of the Millis Department of Public Works, was appointed, on an unanimous vote of the Board, to the position of Water and Sewer Registrar.

In keeping with the budget restrictions of Proposition 2-1/2, Mr. Lealth at option the sound of Public Works to decrease the 1982-83 Water and Sewer Budget by \$1,922.00

Housing the Water and Sewer Registrar position at the Board of Public Works' office has created a more flexible and efficient means of operation relative to water and sewer billing procedures.

11. The life the effects of the Board of Public Works and its administrative staff, grant offers were obtained under amended Chapter 805 Acts of 1979 as follows: for Leak Detection and Testing - \$12,500.00 and for System Rehabilitative Assistance \$318,250.00.

The realization of the before mentioned monies will allow further later remains to be implemented to the town's water distribution system. It is the railed in year 19-1, the annual pumpage figure for our three town water wells was recorded at 240,480,180 gallons.

We again urge all citizens to make the conservation of water one of primary importance in their homes and business.

We, as a Board, would like to take this opportunity to express and extend a softendation and gratitude to Superintendent Robert Leslie, General French Edward Dairdix, the employees of the Department of Public Works, our extends and Administrative Olerk, Janet Collins, and Senior Clerk, Susan Wester, the their cutstanding work and constant support throughout the year. Our thanks and appreciation are also extended to the Board of electron. Town Appropriately, Town Counsel, Town Treasurer, other town boards, internation and employees, all different of Millis and our tamilies, whose iteration and help enable up to a stique serving the community to the best of our ability.

Respectfully submitted, George DeAngelis, Chairman Robert M. Hagearty, Clerk Edward J. Cronin

REPORT OF RECREATION DEPARTMENT

The year 1982 saw many active residents of Millis involved in Re-restion programs. Interest in Re-reation has continued to grow along with the Departments' program.

Several new programs introduced this year were a summer exercise to music program emphasizing dance serobics, a delightful spring trip to the Bost n Pops, a family trip to Disney on Ice, a weight training program, CFF ourse, men's league soccer competition at the Fourth of July celebration, girls gymnastics program, and spring golf for adults.

Millis residents can now brag about their very own "Lifecourse" which opened on June 12, 1982 at a grand opening veremony. Our opening burzel with excitement. We had approximately 100 guests who heard speeches, took home balloons, shook hands with Smokey the Bear, and learned more about how to use the Lifecourse through demonstrations conducted at each exer is estation.

The Lifecourse is a very good workout ombining jorging and stationary exercise. If you have not begun a routine program of exercise for yourself, this is the year to begin. The Millis Recreation Lifecourse is waiting for your beside 395 Village Street on conservation land.

The Millis Recreation Department wishes to thank the Saloctmen, the Department of Public Works, the School Department, the Police and Fire Departments for their co-operation and assistance with our programs.

Following are facts and figures on Millis Recreation in 1982.

IN MEMORIAM

John P. McDonald 1900 - 1982

John McDonald served the Town of Millis by overseeing maintenance at Niagara Hall for many years. He held the position of Sealer of Weights and Measures from 1971 to 1982.

REPORT OF SEALER WEIGHTS AND MEASURES

I regard a main man report in 1952. It tel section flows of the year were \$135.00.

Respectfully submitted,

John F. McDonald Sealer of Weights and Measures

REPORT OF THE MILLIS SCHOOL COMMITTEE

On the first and third Taesday at each month, a resularly shoduled mention of the School ampittee is held in the Middle School ampittee is held in the Middle School Ellerapy.

The Office of the Superintendent of Cloth which is it ated in the faille school/Hist School building, is open from ":40 come to the form dull; exclusive of holidays and we dender. The telphone comber is an -2034.

The members of the School Committee met as a corporate body with the Superintendent of Schools, 29 times at a height meetings for the carporal mediation school becomes. In addition, sub-ommittees met on more than 50 periods on matters that pertained to need their sea, plicy of transportation.

At the Assaul Election in May, Walter Alecti and Eina Neville were as elected to a three year term. John Henders in we sale ted by the High stall statest held to entry as the New and Committee Student Representative, and the Millis Tealers Association remapsiated Dorothy Hewler and Richard Feen to represent the group at School Committee meetings.

Following the Town election, the School committee orranteed as follows: Witter A. Alecci, remolected chairper out Robert Bealty, remalected Screparce; Inseps Araemault, Associate Member; Daniel Mundy, Associate Member; Edra Neville, Associate Member.

The times is at the clock in the present of the first terminate of the cholocommittee. The budget will reduce by 9 the Fi's and level tunded in FY's. It level tunding in FY's and directly of the condition of th

The schools have already felt the impact of reduced federal funded programme. Although all programmes are made in a little programmes and the manufacture of the schools are supported.

number of objectives and activities. Among them are:

- custodians, bus drivers, health services and cafeteria personnel. Still under negotiations are contracts of administrators and secretaries.
- 2. School policies are continually being reviewed. When situations dictate, new policies after discussion are established. Newly established policies are: a user's fee, service of complaints, produce for discipling aready from a procedure for the investigation of large and a graph production of personnel, and a gittern for the transportation of private school students.

- 3. A study of the existing facilities was conducted. The conclusion of the study was as follows: "After much discussion, it was decided that the Committee could not recommend the closing of a building at this time. If the enrillment figures continue to drop significantly, then these proposals would be reviewed and at that time action would be advisable."
- 4. The Transportation Committee continues to review issues that are brought before them. The Committee feels that this on-going committee has been a valuable source of research. Through their efforts, considerable savings have been realized.

In time notice with the Tale twen, the San I domnittee has accommodated the test rival Inniety by allowing the starge of many valuable Millis artifacts in the Memorial School.

Its list to include the following: to examine a new budget document, to study the filling of Decartment Heads and continuous, to study curriculum the lighest, to recognize the goals and objectives of the students, to begin an innerth look at the Frieram of Studies, to study personnel needs early in the calculum year and to investigate the impact of personnel reductions on the school system.

The state of the state of the support of the support of the state of the support of the state of the success and realization of goals of the Drug and Alcohol Committee.

A survey was undertaken recently to assess the attidute of secondary endertaken recently to assess the attidute of secondary endertaken regarding a school calendar. The opinions and attitudes were varied and diversified.

Miler tority-file years of deviced service to the Millis Public Schools, Mrs. Eleanor Kenney announced her retirement effective June, 1982. Mrs. Than a report as a teacher of biology, math and as Department Head and Coordinator of Mathematics.

Also retiring, after years of faithful service are Emil Lenz, Sr., bus driver and Raymond Fontaine, custodian.

It is also the liberal lammittee statefully acknowledges the cooperation if Itam if it also. The members would be remiss if mention were not made of the until the effects and pervious of leaving assidy, retired Town Accountant. It also extend is appreciation to Mr. Vellante and to all school staff members for their interest, concern, and dedication to the youth of the community.

Respectfully submitted,

Walter A. Alessi Chairperson

REPORT OF THE SUPERINTENDENT OF SCHOOLS

Herewith is presented my eighth annual report as Superintendent of Ochool:. It is the ninety-first report in a series of school reports which began in 1892.

A formidable task lies ahead of us. That task is to convine the publication necessity to return funds to education before it quality is seriously impaired. The help of the community is solicited, because it is vital to the very future of a free and democratic society.

The atbacks that the Millis Public Schools have experienced can no longer be endured. The federal government has reduced vital educational funds, the state has not provided monies for reducing or alleviating the tay burden to its citizens, and the Town has reduced and level funded the school budget. The inflationary rate and a continued demand for services find the school hard pressed to provide a service and quality education that the young people rightfully deserve.

This report appears to be negative in its presentations, but we must intensify our concern to make our schools more effective.

In my last report, it was noted that 2s positions had been eliminated. This year more positions and programs have been reduced and or eliminated. For example, the art program in grades three through eight was reduced from two periods a week to one period a week. The foreign language program in the seventh grade was eliminated, albeit a literature course replaced the program. Teaching positions eliminated or reduced because of declining enrollment and or for economic reasons were: one at grade 2, one at grade 5, one and 3/5 foreign language, one Milite School art, 4.5 High School economics, 1/5 High School mathematics, 1/5 High School science, 3/5 muste, and one High School Assistant Principal. Also, psychological and ounseling services were reduced.

For many of the above rousons which after the quality of the educative offered our young people, it was called to the attention of the School Committee that the issue of Regionalization of Millie Public Schools with another community is a matter that should be affressed on elagain.

A preliminary urriculum assessment was undertaken recently and the administrators and staff members oncerning the mood for curriculum and staff development. It is interesting to note that the focus of attention in curriculum development at the elementary and Middle S hood levels were directed at the basic skills, primarily math, language arts, spelling, so related studies, handwriting, reading, and writing. The High School focused its attention on the need for computer/word processing computer accounting and a renewed emphasis on an analysis of the English curriculum, especially in the areas of literature, critical writing, reading skills, volubulary development, and study skills. The matter of computer assisted instruction is rapidly emerging as an educational process that must be addressed in the immediate future because of recent to be hoological progress. Our students are becoming very knowledgeable in this field, and In-Service instruction for

structure is essential it the staff is expected to keep pace with modern trends.

Space does not permit the listing of goals and objectives of all contributions and staff number, but mention should be made of some of the material staff number, but mention should be made of some of the materials at a sis. Amount for is the observated effort to establish and standard patent sivis my soon ils in all areas to encourage a partnership in a station and it the basal reading series, an analysis of the social studies curriculum, a plant to implement the listening skills minimal appropriately testing program, an investigation of the use of computers in the elementary station program, an individualized language arts writing to gram at the elementary school level, and an effort to maintain and promote a satisfice and succeptive school climate for the benefit of students, staff members, volunteers and parents.

Education continues to be a challenging facet of our society. The issue and introductions content around education have been stimulating, exiciting and motivating. Millis has not been without its incidents. Issues continue to the face of the extenditure of the dollars, declining enrollment, contract the face of the education, then portation, student achievement, grouping, cable t.v., special education, user's fees, kindergarten entrance age, reliablishing the regularments, class size, curriculum development, and if the exercises. Farents and itizens need to understand and support to the face of the school. This can be done only through involvement. Itilize that it can effectively provide for an educational investment that is vital to the future of our society.

In conclusion, I would like to express my appreciation to the School II. The in the reservance, understanding, and support of the educational programs in this year of financial constraint. I also wish to acknowledge the efforts of the staff, the town officials, the community agencies and the many volunteers who donated so many hours of their time to the schools. Without everyone's support, the successful operation of the schools would have been difficult.

Respectfully submitted,

William A. Vellante Superintendent of Schools

REPORT OF THE PUPIL PERSONNEL SERVICES DIRECTOR

It is with pleasure that I submit my eighth annual report to the siture; of Millis which will include some very brief comments on the guidan or and connecting, special education and health corvaces department system wide.

At I have reported for the last several years the Pupil Personnel Perches Department continues to provide a variety of ancillary and supportive services to Millis residents are three through twenty one years in a variety of public and non-public settings. Although the vast majority of the statem's served are within our four schools, several of our students arrowd private are ial educational facilities or collaborative classe, within Millis or in one of the surrounding towns.

Within the area of Special Education much time and effort was spent preparing documentation for and participating in the evaluation employed to the Taska busetts State Department of Eig ation, Dividing a Apenial Education. The Department of Education initially made out at with the chools extend in July at 1301 and substitude its final written evaluation in the Spring of 1982. This intense evaluation found Millis to be in 100% ompliance with both state (Chapter Too) and federal (F.L. 94-142) special education laws and also outlined several exemplary programs within Millist. Although the enrollment is declining across the extend, the special education described that increased by 1° over the past year. This is a statistic that must be ther uphly analyzed in the years to come to make certain that special education programs are serving the appropriate students.

nur miliance and Health Departments ontinue to work with all students in a saviad of problems related to a hool. The dropout rate outfraied to be very low (left than 2) which tende to be a testimonial to the efforts of ment of after members both in regular education and in the supportive services are exact. Also, I believe it is important to a so that our ollower placement rate rate to 71% - an increase of 6% over the 1980 figure.

The outribution of specialized programs are being felt through at the avoiding and layer to our more and more an integral part of the Millis labels. She like Acceptance has arown, over the years through much hard work and maintenest by statt members. I wish to thank the topolers, we retardly parents and staff for their continued efforts in accommodating and understanding some of our most difficult students.

Leady, I would like to thank the Superintendent of Scholk and the Scholl Irin ipals for their curb has ded as influence and support and the look to maintee for their continued encouragement to provide for all at our children over the last year.

Respectfully submitted,

Richard F. Cass

ELEANOR KENNEY

1947-1982

Elean Total as a biology teacher in the Millis School system then went to material to the Characteristics Department Head and Mathematics. Reserve will be long remembered by the many students who attended her classes.

Committee, staff and citizens of Millis.

REPORT OF THE HIGH SCHOOL PRINCIPAL

This is my eighth annual report to the Town of Millis.

The enrollment for the current's hool year at footsbor 1, 1982 for grade. 9 through 12 is 389. This reflects a decrease of 34 students at the high school level from a year ago.

The American Field Service Foreign Exchange Program well med its fifth exchange student to Millis this summer. Mr. Stefan Riedel of Goodfinger, West Germany arrived in August and is living with his American family, Mr. Viginia Paur of 373 Exchange Street.

The high school who had begun a year earlier to generate its own scheduling, grade reporting, and attendance has now expanded these services to include the Middle School attendance as well as that of the Memorial and Clyde Brown Schools. Additional equipment has been added this year mainly through the efforts of Mr. Michael cannot and Mrs. Alice o'Reason who spent a great deal of time writing a Block brant and an obsertional Education brant to obtain the necessary funding. As a result of their efforts, word processing and emputer accounting will be added to the curriculum and a level of sophistication in these areas will greatly enhance the curriculum of the high school level.

The Class of 1982 enjoyed tremendous success in achieving college acceptance. Fifty-five percent of the class was accepted at four-year olleges and mother sixteen percent was accepted at two-year olleges for a total of seventy-one percent total acceptance.

During the past year, Mr. Laurence Magner has developed a health course which is enjoying relative success as two full year sections are being offered as a result of student interest. The course incorporates the former birst Aid and aPR curriculum along with their accompanying certification and includes a host of health topics with emphasis on drug and alcohol use and abuse.

This past year has also seen a re-emphasis on language arts and writing skills across all areas of the curriculum and the apparent results based on the increased scores in the SAT's indicate that positive results are being derived. Hopefully, these results will increase as further efforts continue to be a foremost staff concern.

Despite the loss of additional administrative and extra curricular positions, life goes on fairly smoothly at the high school. Although some attivities have been modified or curriciled, the cast majority of programs and activities continue without serious impairment to their effectiveness resulting in a very positive school climate. Without the cooperation of the student body and staff, this would not be possible and I take this approximate to thank the Millis High School student body and staff for making the first half of the 1982-83 school year an enjoyable experience.

In conclusion, I would like to extend an invitation to the community to Invite themselves in the pregrams and entivities of the school and to sellect their meral, and fibancial support in order that Millis High S hool may continue to be the kind of school they are proud to have their children attend.

Respectfully yours, Paul A. Brunelle

REPORT OF THE MIDDLE SCHOOL PRINCIPAL

My seventh annual report to the citizens of Millis will include information reported to me by coordinators, and teachers.

This year we established eight school goals. These goals include: implementing a new system of selecting books for doing book reports; establishing a committee to study and make recommendations on how emputers could be used to enhance the instructional program; implementing the new literature program; planning for the new listening skills minimum empetency testing program; writing and disseminating a new Middle School Student Handbook; publishing a monthly Newsletter to parents by parents; implementing a computerized attendance procedure; planning a study skills improvement program.

A highlight during 1982 has been the planning of a course for teachers by Miss McKav, Mr. Cangi, and me which will help teachers become more familiar with the operation of micro-computers, find the best software available to fit our students' needs, and determine the best way to implement a computer assisted instruction program.

Our music program continues to be a great source of pride. The sixth grain and seventh and eighth grade bands displayed their talents at a special holiday performance. Traditionally, we will present our annual spring concert and annual middle school play production in the spring. Physical education and art continue to be real favorites with our students. We have continued afterschool intramural programs in basketball, dance, cross country, field hockey, weight training and volleyball. Emphasis in skill development in both competitive and non-competitive activities continues. Our art program guides students towards developing creative ideas and carrying them out through individual projects.

The cultural/enrichment program continues to be a highlight of our students' week. Activities include C.P.R.; tov making; audio visual student aides; newspaper; dance; composition workshop; plumbing; dramatics; and mechanical drawing. All students have choices. Activities are changed on a quarterly basis.

Our special education program continues to improve in identifying and treating the special needs of our students which include learning disabilities, counseling, and speech therapy. Special needs teachers work closely with classroom teachers as a result of our team teaching structure. Special needs students are scheduled in a streamlined fashion so that student's needs are being met by fewer specialists who know the individual child better. Our Chapter I math remedial specialist continues to provide excellent individual and small group instruction to those students who need that extra attention.

In closing, I wish to express my gratitude to the School Committee, Superintendent, all personnel, and to the parents, students, and community members for their cooperation, commitment and support.

Respectfully submitted, Laurence W. Aronstein, Ed.D. Principal, Middle School

RAYMOND FONTAINE

1976-1982

dedication to his position are appreciated. Best wishes are extended from the School Committee and staff.

REPORT OF MEMORIAL SCHOOL

I am pleased to submit my third report as principal of the Memorial behalf. We are fortunate to have an excellent teaching and support staff, as well as concerned and involved parents.

The results of the schievement tests indicate that our students are doing well in all academic areas. The day-to-day lassrom instruction, activities and projects support this. We have targeted four ourrivalar areas on which we will be placing study and revision this year. The first curricular area is student writing.

A federal grant was awarded the Memorial School under Title IV. A program entitled Individualized Language Arts is being implemented with those fund for the purpose of improving student writing. Each teacher involved in the program goes through a two day workshop and then receives follow-up vicitiom the program onsultants to help make sure the program is in place. The response has been enthusiastic and this program will provide a catalyst to our teaching staff as well as for our pupils.

This is our third year with the state mandated testing and reporting program on the basic skills. Currently tests are administered to all third and fifth grade pupils in reading, mathematics, writing and listening. The process of providing more assistance to youngsters is an onegoing one; we believe the basic skills program enables us to look more carefully at individual student achievement and need as well as providing a vehile tor general curriculum study.

A third area of academic concentration is that of the social studies. Presently four pilot programs, one at grade three, two at grade four and one at grade five, are in process. Materials from major publishers will be reviewed and an adoption for a social studies program or revision for grade. K-8 will be recommended.

A final curriculum area being studied this year is the K-5 reading program. Teachers representing each of the grades will be studying and evaluating many different reading systems in order to determine which one best suits our needs.

The Memorial School Parent Advisory Council continues to be an a tive and supportive group. The P.A.C. conducts an annual Book Fair which, in addition to putting good literature into the hands of children, has raised money for cultural programs, playground equipment and currently toward the pur hase of a computer for the school. It is our belief that omputer education is both desirable and necessary for our students. Many staff members are participating in the school department's course for computer education.

The P.A.C. coordinated a fund raising activity designed to supplement our field trips. Students purchased sweatshirts with a Memorial School logo designed by a student. The pupil who designed the winning logo won a shirt. This activity did as much for school spirit as it did to raise money for the educational field trips.

The Marrial School library continues to be staffed by volunteers and this area is working well. The volunteers not only check books in and out, but also assist children with research projects, keep inventory and recommend the purchase of periodicals and new books.

The artishment courses taught by parent volunteers have included Poetry and Treative Writing, Newspaper Writing, Public Speaking, Babysitting, Fartishing, Sign Language, Math Enrichment, and Morse Code. The courses met for farty minutes once a week for eight weeks and provide another dimension to our children's education.

The school Project Fair is a popular event. The students, on a voluntary basis, make a project falling into four categories; science, social studies, art or a hibby. These are displayed in the gymnasium for other students, teachers and parents to see. For his or her efforts each youngster receives a Dertificate of Participation and has the satisfaction that others can applie something in which he or she has taken pride and is willing to share.

In oldsing I want to anknowledge and thank Mr. Vellante, Superintendent of Intiols, members of the School Committee, and the parents of the Memorial Intiol voungsters for their continued support and encouragement.

Respectfully submitted,

Thomas Deffley, Principal Memorial School

REPORT OF CLYDE F. BROWN SCHOOL

In order to provide its pupils with a substantive and distinctive education, a school must at reasonable intervals review, revise or rewrite the curricula to meet the needs of each child. The Clyde F. Brown teachers have embarked through several committees to work juring in-service days to rewrite the social studies outline to deliniate each grade level's responsibility and to look at new hard cover texts. The reading committee has begun to systematically review the sample series sent to us by the leading publishers of basic readers. The math committee has begun to add to its new curriculum. The committee on testing began a review of several major popular achievement tests as well as a newer edition of the current test in use in Millis.

Parents continued to play a very important supportive role in the life of the school. They served in the library for the fifth year on several days each week so that first and second graders were able to borrow school library books each week. More than sixty parents volunteered to place a "Helping Hands" symbol in their windows at home to denote the availability of a house that can be counted on to provide help in an emergency.

The Parent Advisory Committee again sponsored a "Get Acquainted Tea" that was very well attended by staff and parents. This committee was also involved in the yearly Book Fair and the Spring sale of CFB Mini-Mohawk T-shirts. The purpose of these fund raisers was to provide more field trips and assembly programs for the students.

Parents visited the school during the year to attend the CFB Family Picnic and view an art display during the month of May, which has been designated as Family Month. Nearly 800 lunches were served to families and students. Other functions included Open House during American Education Week and Conference days at the end of the first marking term. All of these events were well attended by at least one member of each student's family.

Another area that is vital to the future needs of our pupils and bears serious concern is in the field of computer technology. Many school systems have added microcomputers to their resources and have incorporated these into the present day learning environment. Ten members of the CFB staff have taken an introductory course in the use of mi-ro-omputers for elementary classroom use and others are following in their footsteps. Therefore, it is inevitable that this area will receive a high priority in our system.

Safety remains high on the list of programs at the Clyde F. Brown School. Free tilms were obtained during the year on the prevention of fires and safety procedures in an emergency. The school safety officer, Al Baima, made periodic visits to discuss and show filmstrips relative to bus, winter, Halloween and summer safety. First grades visited the Millis Fire Station and used our (FB School Safety Coloring Book as a supportive resource in their classrooms.

Ther varied educational and informational programs included field trips (fewer this veir), which provided new experiences, and broadened their

knowledge of the local as well as surrounding area.

Assembly programs for and with the entire student body were performed nurture the year. Memorial Day, Spring, Thankseiving, United Nations, Inlumbus Day and Christmas were celebrated with Sing-Alongs, skits and solo performances.

formal partigraphs were again taken this year. There were three ategories of pictures with many varied selections and prices in each group. Insidering the number of requests for pictures there was a very small percentage of disatisfaction, therefore, there were few retakes.

Another sphired feature that has developed as part of the nutritional and stience purriculum which is educational as well as motivational and of high interest to the students is the making and preparing of certain edible foods. It genuts, proper, bread, Pilgrim's Stew, apple and transerry sauce are some of the favorities. Several of these are made in conjunction with the study of our American Heritage.

This report should include the results of our standardized achievement testing program. The results speak for themselves. At the first grade level the putils soured at least one grade level above their grade in the total resiling and math areas. The second grade results were nearly as gratifying in that they showed one year above their grade level in reading and nearly a year above in the math area.

In conclusion, I wish to thank the members of the school committee, Mr. Wellante, a very hard working staff, and the many parent volunteers who aided in mailing the school year so enriching and successful for our students.

Respectfully submitted,

Raymond T. Lanthier Principal

EMIL LENZ 1961 - 1982

Emil served as a bus driver for twenty-one years. The School Committee and staff wish him good health and a happy retirement.

TRI-COUNTY REGIONAL VOCATIONAL TECHNICAL SCHOOL COMMITTEE

The Triminate Real Ral School District Committee reorganized in July and Latt Long Norfolk was dested Chairman. Others elected to office were Al Instituted Medifielis. Vice-Chairman, and Robert McDonough (Millis), tetate. At that time the Committee lost two members who had served since the early planning if the district: Frank DeLu ia, Franklin, and John crassingers. North Attelbirs. Appointed to fill those seats were Carole Lissell and Elbert Histoir. Additionally, Lenore Auslander, representing the Town of Sherborn, completed a three-year term and chose not to seek restrictions. More recently, Mr. Tim Greene was appointed to serve as Sherborn's representative.

The siministrative structure has also been reorganized during the past ser. John Dane, Assistant Superintendent-Dire tor, retired in September and like I tee, farmer anathric mortinator, was appointed to the position of Transpal. The task of anathric mordination was divided among three others. In Easthesh Manager accepted a position in the Town of Sandwich and elected to fill that position was Arthur Miller. George Picard, who held the maltitude of American of Maintenance & Security, resigned in July and the Flant Engineer, Blokard Madbernatt, has assumed those supervisory duties. The in years filled in I taker with the employment of Robert Thayer, Medway, as Building Electrician.

The ability to adjust to changing conditions has long been held as a railingle educational montest, and we trust that this report will give evidence that a favorable adjustment has been made.

Budget 1982-83

Although our budget for the current year is up slightly from the one of all the later than expected school aid figure allowed us to considerably reduce assessments to all towns with the exception of Norfolk. The assessment to the Town of Millis is set at \$99,949.45, a decrease of the proof of \$200,000.00 to member communities. Millis's share of that distribution, made by direct payment, was \$10,921.16.

Howeverly Norther, we have been immersed in budget deliberations for larger. It was evident that we will not enjoy the good fortune that we did the year past. Our best indications are that State Aid will be down that the value of the fact that exact it admits in time when we must consider the repair or replacement of the fact of the equipment. Obviously the challenge to present an acceptable budget is serious and we assure all concerned that when finalized the budget will be an accountable one.

Audit

During the summer the firm of Peat, Marwick, Mitchell & Co. was retained

for the year ended June 1982. The concluding report, male in Accombor, indicated that the examination did not identify any condition that could be construed to be a material weakness in internal accounting control.

Energy Conservation

For the second conce utive year, we have been successful in reducing the amount of kilowatt hour, used on a month-to-month basis. Plant Engineer Richard McDermott has made this effort a top priority; consequently, although the cost of energy has increased, we have been able to level fund our appropriation for that purpose.

Through a cooperative effort on the part of teachers and todents, we have installed an anemometer on the roof as the start of a teachility study to utilization of wind as an energy source. If after having recorded wind to it for one tull year we find that our location is well suited for the installation of a wind generator, the savings reflected in tuture operational budgets should be significant.

Vocational and Technical Programs

Wherever possible the vocational and technical programs have made every effort to simulate real work experiences by providing service to distribut town agencies, civic organizations, and residents. The Auto Repair and Auto Body departments are fully scheduled for customer work at all rise. Similarly all other departments in the machine and construction trade accept work from district residents if such work coincides with the instructional curriculum.

Consistently gaining in popularity are the customer service, effered by the Cosmetology and Culinary departments and the day care service of the Cailli Care Department is fully subscribed to at all times.

We are particularly proud of the colonial style street light that were designed, fabricated, and installed at the Franklis Common. Six different trade areas participated in the project and all teacher and force the were involved take a creat deal of pride the their whitevents. We wish thank the Franklia Rotary Club for initiating and finencing the project and the Franklia lower one if for the consider a they looked by allowing or students to demonstrate their skills.

A new roof for the Sherbor, Fire Depirt out, he may duffine for the orking Housing Authority, construction of a sound project House the feether that projects undertaken by Irino quite student. We pleased that such activities help to be sen the burden or are subject was these times of financial constraint.

Academic Programs

Pri-County's Academic Frontens continue to vary the week at high the War-bound and college bound students. In a septim, Ira-county want sistees, percent of its graduates on to two additions very jet so only a characters.

In our continuing effort to meet the our parter of it our stable friedounty is initiating a sew program in our bulbs, aller tributer the affi

ietartments entitled "Automated Diffice Technology". This program will trivite training to students in the expanding field of electronic office equipment, specifically in the area of word processing. In addition, the Stience department has expanded its program to include a comprehensive energy curriculum encompassing such topics as home energy audits and energy alternatives.

Tri-loanty's proud history of providing a quality academic program in a vocational setting is supported by standardized test scores. When compared to students nationally, Tri-lounty students demonstrate equal and in many instances superity rates of growth. We at Tri-County will continue to strive for excellence in our academic programs as we meet the contemporary and future needs of our students.

Special Needs Program

The resource rooms at Tri-County expanded their methods of instruction through the addition of five radio shack IRS-81 microcomputers. These allow for the maximum in individualized instruction through truly interactive tragraming. Pupils readily take to the machines and as our library of tracrams ampands, find that instruction can be enhanced in almost any subject matter area. Their specific use in the resource room is twofold: to supplement instruction in regular plasses and to assist in remediation of specific academic skills. Teachers are hospful that some side benefits will accrue: computer literarry or the student's familiarity with computers is expected to occur, as well as improved student motivation to succeed.

Tri-County Awarded Grants

In April 19:1, Tri-County was awarded the sum of \$14,700 in the form of a fintetency Based Visational Education Curriculum Grant. The purpose of the grant was to identify and validate employment sheets necessary to secure an entry level position in the oulinary field and to prepare a teaching curriculum that will serve as a model for state and national dissemination.

The project is being developed jointly with Greater Lowell Regional Constituted Technical School and will be published in Spanish as well as in English.

Instructors in the Food Trades Department are responsible for the implementarion of the saills program, progress of which is being monitored by the Massachusetts Department of Occupational Education.

A ten-week Geriatric Home Health Aide Program for displaced homemakers was Intributed by Tri-County in April 19:2. The project was federally funded and designed to provide women with those skills needed to secure positions in Long-term care facilities as well as health care providers in the home.

Twelve stricts, ranking in age from 22 to 60, participated in the program and results are likely attesting to their skills. The course of studies Ital ded seven weeks of lectures, demonstrations and testing, following by taken weeks of district experience at the Franklin House Health Care and the Walpole Visiting Nurse Association.

Japanese Intern At Tri-County

Tri-County was privileged to host a visitor from Japan during the Spring semester. Reiko Esaki, an instructor in the Tokyo School District, proved to be an eloquent spokesperson for the history, culture and customs of her country.

The Lapanese school internship program was developed to promote good will and understanding between Lapan and the United States. Mrs. Esaki fulfilled the objectives of the program through her active participation in Tri-County's social studies and shop lasses as well as visits to elementary and high schools in the district.

Easter Seal Trophy

The Massachusetts Easter Seal Society awaried Tri-County a troply for raising the most money in the Southeastern Massachusetts region. The Bost 5 Celtics - Massachusetts Easter Seal Baskethall Shoot-Out was sponsored by the Zayre Department Stores.

More than \$3,200 was raised by 134 students in an effort to support the programs and services for children and adults with disabilities.

Marion Ma Aleese, a Tri-County sophomore, raised (800, the top individual in the entire State. Marion and her family, along with Tri-county' basketball coach, were guest at a Bouton Celtics game at the Roston Garden.

In addition to the trophy, Tri-County received a gift certificate for \$150 for its athletic department and students who raised \$30 or more received T-shirts. It was a rewarding experience for all of the participants.

V.I.C.A.

V.I.C.A. stands for Vocational Industrial Clubs of America. V.I.C.A. serves the trade, industrial, and technical students of America through development of their citizenship and leadership qualities. One hundred and five students participated in local, district, and state competitions. Fitty-seven students made it to the state level, which was held in April. One student, Stove Morgan from the Town of Walpole, won top honors in Commercial Art competition and was invited to participate in the national competition conducted in Louisville, Kentucky. Steve, a senior co-op student at Bird Machine Company in Walpole, won the gold modal in Louisville providing him with a \$10,000 scholarship award. In the three years that Tri-County has competed, the students eathered an impressive record - 1 national champ, 3 state champs, ten runners-up in state and local competition. Not at Tri-County teel that the students have benefited from V.I.C.A. by means of an incentive to study and work harder to develop better employability skills.

DECA Club

Iri County DECA lub student Lembers attended several state-wide conferences in 1982 and one student represented the school on a national level. Thirty students participated in the DECA District II Career onference in February. The meeting was held in Sturbridge and enabled Tri-county tlub members to exchange ideas with over three hundred other students representing eleven schools.

In Marth, ten Tri-County students jointed a six-hundred student delegation at IETA's State Career Leadership Conference in Hyannis. Attendees were tested in ten major distributive education occupational areas. Tri-County students Bob Mezzadri Service Station Retailing) and Chervi Morris (General Merriandising) were first place finishers in their respective categories. In addition, Mezzadri was elected State DECA President.

Wen low, distributive education instructor, and student member Bob Mezhadri attended the National DETA Tareer Development Conference in Chicago during the period June In to July 1. Five thousand students representing each of the fifty states as well as Canada, Puerto Rico, Guam, and the Virgin Islands participated it the six day conference which included workshops in marketing, management and career development. Nationally known business and government leaders served as speakers, consultants and judges during the course of the meeting.

TETA antivities included one additional meeting, the DECA FALL Leadership Tinference held in Dedham in Motober. Students attended workshops in leadership and personal development, officer training, chapter group project, and related subject matter designed to promote future DECA projects.

Tri-County Athletics

The year 1891 witnessed a major change in the athletic program at Tri-Doubly. The Doubles of fittially became members of the Mayflower Athletic League during the Spring Sparts Season. With this change in leagues, Tri-Doubly enters a more competitive and well organized league which should provide the athletes of Tri-Doubly an opportunity to improve their athletic abilities.

Tiring the past year a number of our athletes excelled in their various attlet! areas. Many were chosen to league all-star teams and surrounding media All-Star teams.

The Character Opens Country Team haptured its third straight League Title and for tembers of the team were remelented to the Colonial League All-Star Team.

The Opring Trank Team had several members score highly in the South Shore Exthodicals Meet held at Canton High School. In the Vocational School Invitational, Transporty finished in the top five for the second time in two years.

The Initial Dunty Football Team posted its best win-loss record and had several team members selected to the Woonsocket Call and Middlesex news All-Star Teams.

All the athletic teams were very competitive and displayed a willingness to work hard and improve athletically.

In conclusion, we wish to express our gratitude and appreciation to all residents of Millis for the support of vocational technical education. We wish, also, to express to you our continued commitment to offer quality education to students in the most cost effective manner available.

Respectfully submitted,

Melvin C. Long, Chairman Robert W. McDonough, Millis

Philip J. Gavin, Jr. Veterans Agent

REPORT OF THE 128 WEST RESOURCE RECOVERY COUNCIL

Millis continues as an active member of the 128 West Resource Recovery Council, a voluntary association of communities in the central section of eastern Massachusetts wasse objective is to establish a cooperative solid waste disposal and resource recovery system.

Wheelabrator-Frye has continued negotiations throughout the year with the utility companies on the still unsettled issue of the sale of electricity generated by the resource recovery plant.

Respectfully submitted,

Russell Chamberlain Member
